

EAMONN DEVALERA ARRESTED BY FREE STATE AUTHORITIES

President of Irish Republic is at Last in Custody

(By the Associated Press)
ENNIS, Aug. 15.—Eamonn DeValera, "President of the Irish Republic," at last is in the custody of the Free State authorities. He was arrested here today as he was starting an election speech to his constituents. He had boldly announced his coming and when he took his position on the Rostrum in Market Square Free State troops threw a cordon about him. The crowd that had gathered had given Mr. DeValera a tumultuous reception and he had just started his address in Gaelic when a shout arose "The soldiers are coming."

Simultaneously armoured cars rattled noisily up to the vicinity of the crowd. The crowd fled in all directions as the soldiers fired several volleys over their heads. Many women fainted. As several soldiers rushed toward the platform DeValera was seen to sway and then collapse. At first it was thought the Republic leader had been shot but it turned out that he had only fainted, probably in consequence of a blow he received during the stampede.

When he recovered he was assisted down the steps by troops. He waived aside a number of persons who seemed desirous of trying to rescue him and surrendered to an officer who received him with a kindly "come along."

DeValera Taken to Jail.
When the first panic had subsided the troops returned to Market Square. Many of them hurled insulting remarks at the troops and for a moment the situation looked ugly. The troops, however, took things calmly, fixed their bayonets and soon restored a degree of order. Then with a large crowd following him Mr. DeValera was taken to the county jail. He offered no resistance. When he arrived at market square for the meeting DeValera was accompanied by his young son and a priest. He seemed nervous. There was a notable twitching of his face and he seemed ill at ease as he sat on a chair before he arose to speak.

In the few remarks he was able to make before he was arrested Mr. DeValera said:
"When we would not come to you to tell you the truth, they said we were anarchists, out for destruction. I come here to tell you I never have stood for destruction. I never have stood for the enemy's game, which is to incite one party to fight another party."

"Since the beginning I have preached one gospel, which is the gospel I preach to you today." The arrival of the military cut off further remarks. All together a dozen persons were treated for injuries in the local hospital. Two of them suffered from bullet wounds and the others from cuts or bruises.

According to the reports current here the free state cabinet was equally divided over the wisdom of arresting DeValera. A strong feeling prevails that today's events will insure his election to the dail.

GOVERNOR M'MASTER LAYS DOWN ON JOB

(By the Associated Press)
PIERRE, S. D., Aug. 15.—Governor W. H. McMaster, who precipitated the present gasoline price war more than a week ago when he instructed the state highway commission's supply station at Mitchell to sell gasoline to the general public at 16 cents a gallon retreated from his original position today when he consented to increasing the price to twenty cents, following a conference with a committee representing the independent oil jobbers of the state.

Late this afternoon the governor announced informally that in view of the six and six tenths cent cut made in the retail price of gasoline through the middle-west by Standard Oil of Indiana, he and the committee which conferred with him on a fair price, had agreed that a similar price was justified in South Dakota.

DEMOCRATS CLAIM POLITICS IS BEHIND SLEMP APPOINTMENT

See Coolidge as Candidate For President in 1924

(By the Associated Press)
WASHINGTON, Aug. 15.—Appointment of C. Bascom Slemph as Secretary of President Coolidge was the occasion today of the Democratic national committee's first attack on the executive since he took over his new duties.

In a statement issued thru its publicity department, the committee said the selection of Mr. Slemph, who for years represented the Ninth Virginia District in the house of representatives was "tantamount to an official announcement that President Coolidge is a candidate for the presidential nomination in 1924 and that the appointment is the first step to round up delegates from the southern states for Coolidge."

WILL TRY TO BREAK ANTHRACITE DEADLOCK

(By the Associated Press)
NEW YORK, Aug. 15.—A way to prevent suspension of anthracite coal mining after Sept. 1st was opened today by the intervention of the United States coal commission in the deadlock which has hitherto prevailed between the miners' union and the operators.

Wage negotiations which broke off two weeks ago between the operators and miners now may be resumed, the operators said in accepting the union proposal. Both miners union officials and operators' representatives however will meet together in a coal commission to confirm the situation before going ahead. Officials of the miners' union proposed to the commission to abandon their demand for a "checkoff" of union dues if the operators would cease their practice of collecting explosive and fuel accounts by the same method, and after conference tonight the operators agreed to the proposal in full.

KARBINE DOES NOT GET INTERVIEW

(By the Associated Press)
KANKAKEE, Ill., Aug. 15.—Edward Karbine, leader of striking employees of the American Zinc company plant at Hillsboro came here today to see Governor Small concerning the strike situation, but had not conferred with him early tonight.

The chief executive said at 5 o'clock he had not had a visit from Karbine nor had he given him an appointment for tonight. Karbine's purpose in his trip was to tell the governor that the union men have no objection to the presence of troops at Hillsboro and are not asking that National Guard be removed.

Colonel Samuel Hunter of the National Guard arrived here today from Hillsboro but said his visit is not connected with the strike that he had only come to attend to political meeting for the governor's candidacy to re-nomination.

RELIEF MEASURES ARE BEING TAKEN IN FLOOD DISTRICT

Utah Elks Send Check for \$5,000 for Flood Sufferers

(By the Associated Press)
SALT LAKE CITY, Utah, Aug. 15.—Relief measures for the homeless and steps to bring about the rehabilitation of Northern Utah's flood stricken area were taken by state officials today, while at Willard, Utah, the gruesome search thru the debris for the bodies of more dead was being continued.

Meanwhile the death list continued to stand at 10 tonight and the property loss was estimated at approximately \$1,500,000. Governor Maby today asked the citizens of the state to contribute \$75,000 to be expended for relief measures. The chief executive also appointed a flood relief committee of sixteen, composed of prominent men from various parts of the state.

Relief forces headed by National Guardsmen, were organized further tonight for adequate forces to search the Silt near Farmington and Willard for bodies believed to have been buried. The rescue workers at Willard penetrated thru great heaps of wreckage and debris today but no trace of further loss of life was uncovered. At Farmington canyon 300 rescue workers searching for six or eight campers, reported missing since the storm, were called in after the members of the camping squad were reported to have safely passed thru the storm.

One of the large checks contributed for relief work today came from the state lodges of Elks. It was for \$5,000.

PROMISES SUPPORT TO GOVERNOR BRYAN

(By the Associated Press)
LINCOLN, Neb., Aug. 15.—Governor McMaster of South Dakota today promised support to Governor Bryan of Nebraska in prosecuting various oil companies in federal and state courts, should it become necessary. In answer to a telegram from Governor Bryan the South Dakota executive said:

"I am informed that Standard Oil has reduced the price of gasoline by 6.6 cents thruout the midwest. If that is true, your fight is won temporarily at least and in the future I shall be glad to co-operate with you to the fullest extent if further action is necessary."

The Nebraska governor's message had suggested that he had asked Attorney General Daugherty to prosecute the oil concerns under the Sherman anti-trust law, and that the Dakota executive should make a similar report. Gasoline today sold at filling stations in Nebraska at prices ranging from 15 to 20 cents a gallon, the most general price being 16 1/4 cents. The cuts yesterday ranged from 5 to 6 1/4 cents a gallon, largest cuts being made at points where gasoline had sold at 25 cents.

Governor Len Small Announces Candidacy

(By the Associated Press)
KANKAKEE, Ill., Aug. 15.—Placing his trust in the people of Illinois "as they have placed their trust in me," Governor Len Small this afternoon announced he will be a candidate at the primaries next April for the Republican nomination for governor.

This formal announcement of his candidacy, regarded certain for months, came shortly after five o'clock at the close of a huge political rally held by the governor's friends and leaders of the administration faction of the Republican party and after several prominent men in speeches had praised his regime. He is the first Republican to make known definitely his gubernatorial aspirations, the others are known to have been lining up forces for some time.

"My only ambition," declared the chief executive, "is to continue to give to the people the best administration possible, including the construction of the greatest permanent road system ever built in any state or territory of like size."

"I believe that you, and I, have a duty to perform and if you, the people of Illinois are willing to do your part, I am willing to do mine, and we will carry this fight for right and justice to every fireside in Illinois."

By "this fight" Governor Small meant the hostilities with "the interests" which he asserted had hounded him thru more than two years of his administration. He realized, he said, the great responsibility, and realized that "if I become a candidate for re-nomination the Chicago Tribune and its allies among them the greatest criminal profiteers in America, will not only continue but increase their campaign of persecution, abuse and vilification."

The governor will base his campaign on a progressive platform. Its principal planks will be:

Wealthy Real Estate Man Arrested in New York City

(By the Associated Press)
NEW YORK, Aug. 15.—Glen C. Tobias, of Los Angeles, said to be a wealthy real estate promoter was arrested for the federal authorities in Portland, Oregon, today on a charge of violating the Mann white slave act. The complaint against Tobias sworn to by Miss Ellen Dickens, 23, of Joplin, Mo., was served on him at the Hotel McAlpin.

United States Commissioner Hitchcock held him in bail of \$1,000 pending a further examination on August 29. Miss Dickens charged, according to the police that she was deserted by Tobias in Portland, Oregon, after she had traveled with him from Kansas City, Mo., to the Pacific Coast, stopping in a number of cities enroute.

Tobias declared there was some understanding and that he would quickly clear himself of the charges.

He told the police he employed Miss Dickens as a stenographer in connection with the sale of a large tract of land which he owns near Los Angeles California. While they travelled together he said his relation was entirely formal, the girl always stopping at a Y. W. C. A. dormitory while he slept at a hotel in the cities where stops were made.

KILLS MOTHER-IN-LAW THEN SHOTS HIMSELF

(By the Associated Press)
Columbia, Ga., Aug. 15.—Mrs. Alex Harris, 75, was shot and instantly killed here tonight by Charles Wilder 42, her son-in-law who according to the police later committed suicide. Wilder's wife witnessed the double tragedy.

cago local transportation lines under a five cent fare, completion of Illinois Waterways, equalization of all taxes based on the principle that those best able to pay should bear the heaviest burden, continued high inheritance tax, taxation of wealth now escaping levies, initiative and referendum, free speech and free press, abolition of the injunction in labor disputes with guarantee of trial by jury, justice to world war veterans, continuation of direct primary home rule for every municipality.

These planks were embodied in the declaration of principles drawn by the resolutions committee of which Congressman Michaelson of Chicago was chairman and adopted by the convention.

Governor Small declared he stood for all the principles therein enunciated. Those concerning the federal government were:

Creation of the cabinet office of Secretary of health, peace and friendship with all nations but entangling alliances with none, no forsaking of isolation policy without popular referendum, constitutional amendment to provide for war referendum except in cases of actual invasion, condemnation of compulsory military training abolition of the Pittsburgh plus trade practice, drastic action by federal government to relieve present financial hardships of farmer's section of the interstate commerce commission to fix and regulate prices and distribution of farm products, repeal of the Esch-Cummins railroad law with reduction in all rates on basis of actual physical values of railroad properties, election of federal judges.

The rally was held in the Kankakee Armory with nearly 7,000 persons present and hundreds unable to gain admittance.

The arrival of the governor with William Hale Thompson caused loud and prolonged cheering as a band followed playing a popular song "For He's a Jolly Good Fellow."

INJUNCTION IS ISSUED AGAINST KU KLUX KLAN

(By the Associated Press)
CHICAGO, Aug. 15.—Three local klans with membership of approximately 1500 men were named in a temporary injunction issued today by Judge Walter P. Steffen, restraining them from holding meetings without authority of headquarters of the Ku Klux Klan.

The bill is directed against William J. Simmons, former imperial wizard, and Major Franklin C. Browne, James C. Stockwell and Willard P. Roberts, heads of the three klans all of whom are said to be suspended.

Attorney Charles G. Palmer, representing E. W. Evans, imperial wizard of the Klan, asked for the injunction declaring that Simmons is endeavoring to organize the Knights of Kamella and obtain his members from among klansmen. A deputy sheriff was ordered to stop a meeting said to have been scheduled for tonight in a downtown building and a mass meeting planned at Dunning near here for Saturday night.

(By the Associated Press)
WASHINGTON, Aug. 15.—President Coolidge approved today one issuance by the postoffice department of a memorial stamp bearing the likeness of the late President Harding. Designs for the new stamp which will be of two cent denomination were submitted to the president by Postmaster General New.

The new stamp will be issued in large numbers but will not replace the present two cent stamp. It will be black in color, the only black stamp issued by the postoffice department, and will bear a profile bust of the late president, the name "Harding," the denomination, and probably the years of Mr. Harding's birth and date.

BERLIN SITUATION SHOWS IMPROVEMENT

(By the Associated Press)
BERLIN, Aug. 15.—The labor and food situation in Greater Berlin today showed improvement over previous days. This was due to the calling off of the general strike by the Communists. The attempts of the Reds to paralyze the city proved to be a fiasco owing to the opposition of the regular labor unions.

The currency shortage continues, although there seems to be a plentiful supply of bills of large denominations in circulation.

AGREEMENT WITH MEXICO SIGNED BY REPRESENTATIVES

Probably Means Resumption of Diplomatic Relations

(By the Associated Press)
MEXICO CITY, Aug. 15.—The records of the conference between representatives of the United States and Mexico embodying an agreement designed to make possible the resumption of diplomatic relations between the two nations were signed here at 2:15 o'clock this afternoon.

The signature brought to a successful conclusion the negotiations extending over more than thirteen weeks between Charles B. Warren and John Barton Payne, personal representatives of the American president and Fernando Gonzalez Roba and Ramon Ross, for President Obregon. The actual signature however, was by John F. Ugrud, and J. Ralph Ringe, secretaries of the Mexican and American delegates respectively.

The American delegates will leave shortly for Washington for submission of the records together with the accompanying claims convention to President Coolidge and Secretary of State Hughes. It is confidently expected here that the Mexican government's interpretation of the sub-soil-petroleum legislation and American laws contained in the record signed today will be acceptable to the American administration and that the appointment of an United States ambassador to Mexico will not long be delayed.

Indications are that the claims convention which are intimately related to the United States determination to secure guarantees for American rights in Mexico will likewise soon be submitted to the American and Mexican senates for approval, contingent upon the extension of recognition.

The conference records contain Mexican government interpretation of the sub-soil-petroleum and Agrarian legislation acceptable to the American delegates and an expression of the governments intention to follow these interpretations in good faith. Under the sub-soil-petroleum section American oil companies rights to sub-soil acquired prior to the going into effect of the Queretaro constitution on May 1, 1917, remain intact. After that date the provisions of the Queretaro constitution relating to the subsoil prevail.

NEARLY TWO THIRDS FORCE NOW WORKING IN HILLSBORO MILL

Officials Expect Full Complement by Friday Night

(By the Associated Press)
HILLSBORO, Ill., Aug. 15.—With virtually two thirds of the normal force of 500 men on duty after the night shift had reported for work this evening at the plant of the American Zinc company at Taylor Springs, which has been the center of a strike for recognition of the International Union, Mill, and Smelter workers' union for eight days, company officials announced that operations were approaching normal in all departments. A full complement of men was expected by Friday night, a plant superintendent reported today to representatives of the federal department of labor who have been here several days endeavoring to bring about a settlement.

Workmen who reported today numbered 186, officials of the company said. Spokesmen for the union said few men had deserted their ranks.

In announcing that all former employees of the company could return to the plant in their former posts regarding union affiliations, the company's officials declared that no men would be brought into the works from the immediate community of Hillsboro.

Sheriff Charles J. Hill continued today to augment his force of deputies on duty at the plant, increasing the number to 130. Five miners were in the county jail tonight awaiting trial in September for their refusal to serve as deputies at the plant.

A sixth arrested on the same charge was released on bond.

A union picket line about the plant was abandoned this morning.

Colonel Albert Culbertson commander of the ten units of national guard on duty around the plant said tonight no word had come to him from Springfield as to when troops would be withdrawn. Citizens of Hillsboro continue to urge the state authorities in telegrams to keep the militia "until peace is fully restored in the community."

REDUCTION IN WINTER WHEAT ACREAGE

(By the Associated Press)
WASHINGTON, Aug. 15.—The Department of Agriculture announced today that a canvass on August 1 of 25,000 farms showed a reduction of 15.5 per cent, or 7,177,000 acres in the acreage farmers intend to sow in winter wheat this fall as compared with the area sown last year. The crop reporting board explained to report was not a forecast but simply a statement based on the expressed intentions of many thousands of farmers August 1. Their intentions, it was added, are subject to change.

A reduction of 15.5 per cent would mean that about 39,200,000 acres will be sown to winter wheat this fall, 16.2 per cent larger acreage than the averaging of the five pre-war years, 1909-1913. If the average annual abandonment of winter wheat acreage which for the last 16 years has been 9.8 per cent occurs this winter about 35,360,000 acres would be harvested next summer. Last year the abandonment was 14.36 per cent or 6,629,000 acres.

Possible production on the basis of the indicated acreage was not calculated. This year's crop has an average yield of 14.3 bushels per acre, last year's 13.9 bushels and the five year (1917-1921) average was 14.9 bushels.

The canvass shows Missouri and Nebraska farmers making the largest cuts in acreage, both states reporting an intention to plant 25 per cent less than last year's sowing. Kansas and Illinois on the basis of the canvass intend to plant 20 per cent less, Indiana 17 per cent less and Ohio and Michigan four per cent less and Washington five per cent more.

RELATIVES THROG MORGUES LOOKING FOR LOVED ONES

Mining Town of Kernmerer Mourns Loss of 97 Men

(By the Associated Press)
KEMMERER, Wyo., Aug. 15.—Kemmerer tonight was in mourning for the miners—97 of them—who are known to have lost their lives in the explosion at Kemmerer coal company mine No. 1, at Frontier, near here, yesterday. Throught the day and tonight hundreds of relatives and friends thronged to the L. O. O. F. hall, which has been turned into a temporary morgue and also to a local undertaking establishment where about half of the bodies are being kept.

Tonight, however, there were but few people congregated at the portal of the mine where last evening thousands crowded for news of endeared ones, trapped while working in the bowels of the earth.

The latest official report of the coal company is 97 miners are dead, one is missing and 37 have been rescued alive and unhurt.

What caused the explosion in the mine has not been determined, but officials of the company announced that the pumps for water and air are not damaged in the least and that work will be commenced as soon as possible. The mine in which the disaster occurred is considered one of the deepest in this section of the country—if not in the entire United States. The main shaft goes down at an angle of 16 degrees to a depth of about 6,000 feet and it was on the lower levels, or about one mile underground that most of the bodies were found.

Search for the body of one missing miner is being continued with all possible speed by picked crews of mine workers.

It is the intention of the mine company to keep the search at top speed until his body has been located.

All Bodies Identified
Shortly after dark last night the grim task of removing the first bodies from the mine began. They were hauled to the surface in trip cars and then loaded upon motor trucks for transit to the two morgues at Kemmerer. The last body of 87 recovered late last night was identified shortly after 2 A. M. and immediately upon arrival in Kemmerer today they were prepared for burial.

In one of the small rooms of the L. O. O. F. building undertakers and volunteers worked until late this morning. Leaders experienced no difficulty in getting the men to perform the duty of washing the bodies and otherwise preparing them.

One man told newspapermen he worked faithfully until after 7 A. M., but had to cease when it came to preparing the body of a very dear friend.

"I loved that man like a brother," the old man said. "When his body came around I just couldn't muster up courage to go ahead and had to leave."

The bodies of the dead miners—stripped of all clothing—have all been arranged in rows and covered with burial shrouds to which are attached identification cards.

The majority of the corpses are in excellent state of preservation and are not blackened as is usually the case in mine disasters. Several of the bodies are somewhat burned, but none beyond the point where identification was comparatively easy. Throught today the little settlement of Frontier at which the mine is located, had a pitiful spectacle. Widows and children of the dead men congregated to discuss their misfortune and shed tears for the departed ones. There was hardly a home in either Frontier or Kemmerer that was not in some way affected.

Pathetic Scenes at Morgues
Pathetic instances were numerous at the morgues. One mother arrived with three small children to view the remains of (Continued on Page Four.)

C. Bascom Slemph is not a particularly euphonious name, but this appears to be another case of "what's in a name?" Mr. Slemph, a prominent business man and politician of Virginia, has been appointed private secretary to President Coolidge and the president would not be likely to choose an incompetent for that position.

George Horace Lorimer of the Saturday Evening Post just returned from Europe, declares that Germany can pay and that France is in the right in its Ruhr action. The opinions as to whether or not Germany can pay seem to be just as varied as are opinions of conditions in Russia. Very certainly Americans who go to Europe to study conditions do not see them thru the same eyes.

Secretary of Labor Davis has been telling some very blunt truths to his English hosts during the course of his visit to his native land. The impression seems to have gone abroad that, being a Britisher by birth, he would readily accede to the British views on American immigration, but quite the reverse is the truth. "America does not want and will no longer accept Europe's refuse," Mr. Davis asserted at one of the teas he attended, and he has been giving Englishmen a lot more wholesome advice along the same line.

The recent frequent rains have materially helped along the supply of water at Mavawater lake and Morgan lake. There is more water in storage than has been the case for several months past. It is to be hoped that this good condition will not result in

apathy toward the plant enlargement program. A large water main leading from the plant, a stand pipe at the west reservoir and some other betterments should be made just as speedily as the necessary steps can be taken.

"I am an optimist," declared the chief of the great Westinghouse Electric company in an address to his employees. "Everybody in this country ought to be an optimist. If he is not he can find no encouragement on this planet, for the United States is the best country in the world."

Here is food for thought for those who permit themselves to be depressed by certain faults, they think they see in our social and industrial life or our system of government. Let them point to a country, if they can, where conditions are better than in the United States. Until they can furnish such a contrast they must cease their mutterings and congratulate themselves that they are American citizens.

Lumber production in the United States has been decreasing steadily in the last half century. Consumption has been increasing. At present we use—and waste by fire, insects and disease—about 25 billion cubic feet per year. That is, we consume 212 cubic feet per person per year. We grow only about six billion feet.

If the entire forest area could be placed under intensive forestry, we might be able to grow some 27 billion cubic feet per year. That would take care of our present rate of consumption and give us a little margin of saving.

"Woodman, spare that tree" is not the motto of modern forestry. But "Woodman, plant all the trees you can and spray them and prune them and look after them" is what the Department of Agriculture would like to suggest.

FORMER RESIDENT
IS VISITOR HERE

Samuel Thies who left Jacksonville about 29 years ago is now in the city for a visit with his niece Mrs. William Megginson at 333 West Morgan street.

Mr. Thies is now manager of a ranch of 17,000 acres in Lake county, California, on which seven tractors are in use. The ranch is owned by a Serbian, which race, according to Mr. Thies, like the Japanese and Hindus are progressing rapidly in the acquisition of land and capital. He states that although this ranch of 17,000 acres may seem large to people of this state, it is a very common one in the west. As an example he cited the ranch owned by Miller and Lutz of San Francisco, who are generally spoken of as the Swifts of California on account of their control of the packing industry there. The ranch that is owned by this firm contains 1,000,000 acres altogether. It has been stated that this firm can start a drove of cattle from Canada and drive them into Mexico without leaving their own land.

He expects to visit here for a while and will then go north for a few days and is hoping to spend the next winter in Florida. He is so far undecided whether or not he will eventually return to the California ranch.

Free cantaloupe at Loop cafeteria today.

C. F. TAYLOR HERE

He has not visited here for more than four years. While residing in the city, Mr. Taylor was employed by George Harney as a harness maker.

G. W. Arundel of North Fayette street left yesterday for Terre Haute and other Indiana cities. He is making the trip by auto and plans to be away about 10 days.

**WHITE HALL TO HAVE
 BIG PICNIC SATURDAY**

Annual Picnic of Greene County Farm Bureau to be Held in Gregory Park Saturday, Chautauqua to Begin Sunday.

White Hall, Aug. 15.—White Hall's annual festival, recreational and educational event begins next Saturday with the annual picnic of the Greene County Farm Bureau on Gregory park, featuring a free fish dinner on the order of the free barbecue that was such a drawing card on the Fourth of July. The annual farm picnic is the sixth held since the organization of the Greene County Farm Bureau, and they have always been held on the day in advance of the White Hall Chautauqua. The program announced by the farm bureau equals the best on the chautauqua program, including Sam Crabtree of Peoria, one of the liveliest platform men of nine states. The program will begin at 10:30 with a program by the White Hall K. of P. band, followed by entertaining numbers by Mabel Pearce Meisenbach of St. Louis, in Indian costume. Ample time will be given for the free fish dinner during which there will be more members by the band and Mrs. Meisenbach. Interspersed with the business of the farm bureau, and Sam Crabtree will speak at 2 o'clock, to be followed by G. E. Metzger of the Illinois Agricultural Association. The farm picnic will open the drive for the Greene County Farm Bureau, preparations for which have been in formulation for several weeks. This drive is really in progress at this time, and will culminate in a grand final drive in connection with the farm picnic.

On Sunday the eighth annual assembly of the White Hall chautauqua will begin its sessions by featuring Hon. L. Y. Sherman, former U. S. senator from Illinois. These sessions will continue for eight days. A playground demonstration is being planned by the White Hall Woman's Club in the interest of the campaign for playgrounds in White Hall. Bands and orchestras make up a large part of the chautauqua program this year, there being only four speakers of eminence available for such a chautauqua as is held at White Hall. The White Hall K. of P. band has been engaged for the entire season.

Mr. and Mrs. T. N. Bush and daughter and Mr. and Mrs. J. W. Downs motored to St. Louis on a business trip Tuesday.

RELATIVES THROUGH MORGUES LOOKING FOR LOVED ONES

(Continued from Page One). The husband and father. The widow and her children passed along the rows of the dead in the undertaking establishment first, but he was not there. They then trudged thru the Odd Fellows hall and finally found the body. The little girl lifted the burial shroud and uttered a loud scream. The mother, near collapse, was carried out of the building by friends.

Henry Niska, a youth in his early twenties, one of those who escaped alive, had gone to work in the mine only in the morning of the tragedy. He and several companions were rescued from one of the lower levels nearly eight hours after the explosion occurred.

"We were just starting to dig coal when we heard a shot and immediately afterward there was a deafening rush of air," Niska said in relating his experience to an Associated Press representative, while seated at the dinner table at one of the mine boarding houses.

"Realizing that we were in danger," he continued, "my companions and myself immediately searched for water and wetting pieces of canvas we held these to our noses and mouths. We kept up this process for several hours before the air finally cleared, but we did not dare move until the rescue workers arrived."

The story told by Niska is typical of many others of the miners rescued. There are tales of some of the entombed men being overcome in a mad frenzy to reach the surface and still others who died trying to reach other levels upon which they had relatives or friends.

P. J. Quealy, head of the Kemmerer Coal company, stated today that the widows and orphans of the dead miners would not suffer. He said the company will see that they are properly provided for and would need no outside aid. Up to tonight nothing definite had been decided regarding funeral arrangements. In some quarters the possibility of a large funeral for all of the victims was discussed but no decision has been made.

His arrest is said to have been brought about as a result of jealousy upon the part of his wife.

It is said his wife discovered he was paying attention to other women and reported the thefts to the authorities.

The Barrow band furnished the music during the day and the Greene County Farm Bureau entertained the crowd in the evening with a splendid picture show.

President Coolidge, who has been with the organization since he was a boy, will be given the honor of becoming the Honorary President of the Boy Scouts of America, addressing the Chief Scout Executive while Vice President, said: "It is a great honor to be constantly in mind the old saying that the boy is the father of the man, and the quantities which we

Dear friend Allie, you have crossed the bar;
You are resting now in the home afar,
And I will hear your voice no more;
Nor stop for a chat at your cottage door.

Many a burden you have helped me bear,
Many a time you have smoothed my care;
Always joyful and always gay,
Driving the darkness and shadows away.

Just one week ago you came to me
And rested beneath my old roof tree;
And chatted with me at the breaking of bread,
Now I am here and you are dead.

And I know as I stand here by your bier,
And look at that face to me so dear,
That you answered the summons, smiling and gay,
As you met life's burdens day by day.

So tell my friends on the other side
That I am coming just down the road;
I'll sure be there, though I may be late—
So watch for me at the Pearly gate.

One less friend in my earthly home,
One more friend in the Heavenly dome;
And so you have passed to that happy land,
Good bye Allie, good bye, old friend.

EAST STATE PAVING PROJECT DISCUSSED

Citizens Committee Will Co-Operate With Improvement Board in Working Out Plan Best for the Street.

A public hearing on the proposal to pave East State street from the square to the alley adjoining Centenary church was held yesterday afternoon at the city hall by the board of local improvements. The property owners were well represented and the petition objecting to the pavement was presented by George E. Matthews on behalf of a number of the property holders.

It was the view of these property owners that while the pavement is rough and the curbing in some instances in bad condition, that repair work should be the plan rather than a new pavement. An informal and friendly discussion of the whole improvement program resulted.

Mayor Crabtree suggested that a citizens committee might well be appointed to co-operate with the board of local improvements in definitely determining the action that is best for the street. Mayor Crabtree, City Engineer Henderson and Street Commissioner White had inspected the street previous to the hearing and were familiar with a number of the points mentioned by property owners.

The desirability of having the pavement put into first class condition so as to complete the stretch of new pavement from the east to the west city limits was mentioned. The mayor said that above all things the property owners certainly did not want a cheap job of paving done, that it would in the end be most expensive.

The discussion as between the property owners and the board of local improvements was entirely amicable and it was decided that the mayor's suggestion of a citizens committee should be followed and a period of consideration be given before final action is taken by the improvement board.

The committee appointed includes George E. Matthews, Cole Y. Rowe, William Batz, Len G. Magill and P. G. Stein, who is a representative of the I. O. O. F. This committee organized by choosing Mr. Matthews chairman and Mr. Stein secretary.

OBITUARY

Isom Seymour, son of Jackson and Elizabeth Seymour was born Feb. 5, 1851 at the family home three miles west of Franklin, and died Monday, Aug. 13, 1923, at his home in Franklin after a lingering illness of several weeks.

He was married to Mary R. Duncan April 20, 1871 to which union was born 13 children, six daughters and seven sons. He leaves to mourn his loss the wife and the following children: Mrs. Alex Lankford of Virden, Mrs. Frank Wood of Waverly, Mrs. Fred Snow of Franklin, Mrs. James Olive of Decatur, Leon, Stephen, Grover, Orion and Russell Seymour, all of Franklin. His children who preceded him in death were Thomas W., Mamie L., Elizabeth A. Seymour and Mrs. Edgar Arnold. He also leaves living two brothers, John W. and Edward F. Seymour; three sisters, Mary E. Seymour, Mrs. J. H. Roberts and Mrs. W. E. Wright of Franklin.

Mr. Seymour professed religion 51 years ago at the Griswold school house and expressed a satisfaction in the Christian faith during the last days of his illness. Honesty and fair dealing were characteristics most admired by him and practiced in his every day walk of life. He was a husband and father who was ever mindful of the comfort and support of his wife and family. He had a heart full of sympathy which made him always ready to offer a helping hand to those in need.

He has spent his entire life in the vicinity of Franklin and has been a well known and successful farmer for many years. As a man of worthy qualities he will be missed among his many neighbors and friends.

A constant and true husband a helpful father and a respectable neighbor and friend has passed from our midst. May we hold in our memories a kind and sincere remembrance of this friend who has departed us to go to meet with friends and loved ones so dear who dwell in the mansions on high.

"What shall I do, my friend,
When you are gone forever?
My heart its eager need will send
Through the years to find you never.

And how will it be with you,
In the weary world, I wonder,
Will you love me with a love as true,
When our paths lie far asunder?

The way is short, O friend,
That reaches out before us;
God's tender heavens above us bend,
His love is smiling o'er us;

A little while is ours,
For sorrow or for laughter;
I'll lay the hand you love in yours
On the shore of the Hereafter."

H. H. BANCROFT TO BE CHAUTAUQUA MANAGER

Prof. Arnold Lovejoy Resigns as Platform Manager and Mr. Bancroft Is Appointed—Prof. Garrett Hedge to Lead Community Singing

Some months ago the chautauqua management contracted with Arnold Lovejoy to act as platform manager and do some solos and lead the community singing during the chautauqua. Mr. Lovejoy has advised the management, since the program was printed, that his health will not permit him to fill his engagement, much to the disappointment of chautauqua management and patrons.

H. H. Bancroft's associates on the chautauqua board have prevailed upon him to act as platform manager, and have secured Garrett Hedge to do the musical work which would have been done by Mr. Lovejoy.

Mr. Bancroft's experience and ability fully qualify him to take charge of the chautauqua.

Mr. Hedge is not altogether a stranger in Jacksonville as he has filled solo engagements here under the direction of both Prof. Franklin Stead of the Illinois College of Music and Prof. W. B. Olds of the Illinois Conservatory. He has a fine tenor voice and has served as soloist for the Minneapolis Symphony orchestra, the Chicago Symphony orchestra and the Innis band. Mr. Hedge has also had a very unusual experience as a concert singer in New York City.

In addition to his ability as a vocalist he has given special attention to large choir and chorus work and has met with marked success as a director of ensemble singing.

Chautauqua patrons may look forward with high anticipation to the solo work of Mr. Hedge and the community singing under his leadership will be highly pleasing and spirited.

BOYS DOING WELL AT CAMP CUSTER

All But One County of the State Represented.

Noble B. Judah in charge of Camp Custer where 1987 Illinois boys are taking military training writes as follows about the camp.

Dear Sir:—The boys from your community are starting on their second full week at Camp Custer and from all reports are enjoying the time of their young lives.

The labor situation against us in that young men were in great demand both in the shops and on the farms. In spite of this, however, by dint of great effort and at no small personal sacrifice of time and energy the men in charge of the recruiting throughout the State managed to put a very respectable number of young fellows from their counties into camp. Fifty-nine of the one hundred and two counties in the state not only find their quotas but averaged well over one hundred and fifty percent. Only four were under twenty-five percent and one single county, Jersey, failed to send any. In all 1987 Illinois boys are over there now enjoying perfect health and a wonderful vacation without a cent of cost.

Yours very truly,
Noble Brandon Judah,
Sixth Corps Area Civilian Aide.

ELKS ENJOY OUTING IN WHEELER TIMBER

More Than 200 Members of B. P. O. E. Held Picnic Banquet in Beautiful Glen—Chicken Is Abundant and Amusement Plentiful

Several hundred Elks attended the picnic given by the local lodge yesterday afternoon and evening on the George A. Wheeler farm northeast of the city. There were brethren of the order present from Springfield, Beardstown and many other neighboring cities and towns. An abundance of chicken and other good things did not want for consumers, and the amounts eaten by the hungry Elks defy description. There were many games and amusements, such as pitching horse shoes, croquet and athletic stunts, which were enjoyed by the lodge men.

The crowd were also taken for an inspection trip over the Wheeler farm, which is being made into an ideal entertainment resort. Mr. Wheeler has recently completed a dam between two hills and is developing a large lake, which he intends to stock with fish next fall. The picnic supper was served in a beautiful wooded glen, where a large building once was used as a dining hall for saw mill hands, now serves as a club house.

A long table that would seat about 150 persons was constructed from rough boards. The meal was served cafeteria style and consisted of chicken, French fried potatoes, fresh vegetables, pickles, etc. The chicken was fried in large kettles and eaten at the long table in the open timber.

The occasion was one of recreation and relaxation for the 200 or more Elks who attended. Cards, ball throwing, running races, and other forms of amusement were enjoyed after supper.

SPARKLING COMEDY "TURN TO THE RIGHT"

Popular Play Given by Splendid New York Cast at Chautauqua Friday Evening—Big Feature Attraction

Without doubt one of the most important contributions to clean, wholesome amusement is the immensely popular comedy, "Turn to the Right," feature dramatic production at the chautauqua Friday evening, August 17. "Turn to the Right" is an exhilarating yet poignant romance, full of laughter, thrills and the tenderest mellow heart-interest. It is a play which everyone will thoroughly enjoy.

The plot concerns itself with an erring boy's regeneration thru a Christian influence of his old-fashioned mother. An honest-hearted, exuberant youth, Joe Bascom leaves his home and boyhood sweetheart to win riches in the city. Here he meets "Slippery Muggs" and "Dynamite Gilly." How the three of them take a hand with a bumper crop of peaches, and how their nimble wits and Mother Bascom's famed peach jam carry them all thru a tense crisis to a happy conclusion are ingredients that make "Turn to the Right" one of the most delightful concoctions of fun and pathos to be seen anywhere.

The play will be presented here by an exceptionally competent cast of nine New York actors.

ALEXANDER MAN IS STRUCK BY LIGHTNING

Hohman Robbins Is Severely Shocked by Bolt—Is Still in Dazed Condition

Alexander, Aug. 15.—While coming to the house to seek refuge from the storm Tuesday, Hohman Robbins, 23 year old son of Mrs. Katie Robbins, was struck by a bolt of lightning. He was able to get into a nearby buggy and be driven to the house by his sister, but on reaching there collapsed and has remained in a dazed condition, something akin to shell shock, ever since.

The accident took place on the Frank Strawn farm north of Alexander, which is rented by the young man's mother and managed by him. Threshing was in progress, when the storm came up shortly after 4 o'clock P. M., and the men left the fields. Young Robbins stopped for a short time on his way to the house for a few words with his sister, who was driving a buggy.

EXPLAINS DIVORCE LAW CHANGES

In discussing changes in the marriage laws of Illinois made by the last general assembly, State's Attorney Carl E. Robinson yesterday answered questions which have been asked relative to Section 1 of the law relating to divorce. It is the statement of Mr. Robinson the legislature repealed the provision which prevented divorced persons from remarrying within one year.

Under the old law it frequently happened that persons divorced in this state immediately remarried in other states, although they could not do so until after the lapse of a year in Illinois.

J. C. Akers drove in from Manchester yesterday.
